Hello, Jeff,

The SDS has been revised, and it now contains the requested statements. It has been submitted through CDX as an amendment to the original PMN submission. I think it will meet EPA's requirements, but please let me know if there is anything else needed.

Best regards,

PBI / Ex. 4

I cleared it with RAD and they said that is acceptable.

Hi Jeff – would specific target organ – upper respiratory tract qualify as equivalent to lungs?

Thanks-

PBI / Ex. 4

Hello, Jeff,

I have scheduled a meeting with our team for Wednesday afternoon at 4:00 to figure out how we are going to make the requested updates to the SDS. I want to make sure we are getting this correct so I would like to talk to you before then. On Tuesday I will be at PBI / Ex. 4 and on Wednesday I will be back at PBI / Ex. 4 But I will also keep trying to call you as I have meetings throughout the day.

Thanks-

PBI / Ex. 4

PBI / Ex. 4 I need to have your SDS updated with two comments. Section 12: "Hazardous to the aquatic environment" Section 2 "specific target organ"

This would address the Eco concern but this case has not water releases, and the "specific Target organ" language is for the lung issue but we have no inhalation exposures on this case.
